

Load Lifting Pop-Up Conveyor

STRETCH WRAP EQUIPMENT UPGRADES

"Technology for the 21st Century!"

A wrap zone conveyor section with load lifting device that raises the load above the conveyor and allows product to be wrapped securely to the pallet in order to improve load integrity and reduce product damage.

CONSISTS OF

Wrap zone roller conveyor with load lifting pop-up device

- Can be customized to meet the dimension and speed requirements of the customer

IDEAL FOR

All automatic stretch wrappers

Customers who require additional load stability or need to meet specific retailer wrapping specifications that can only be satisfied by wrapping product down close to the slip sheet or the bottom of the pallet

FEATURES

Heavy duty conveyor construction with pop-up device capable of lifting up to 3,500 lbs.

Lifts load up to 4-1/2" above the conveyor

BENEFITS

Durable, long lasting conveyor that requires minimal maintenance and can handle the most demanding applications

Allows wrapper to secure product to the pallet or allows loads on slip sheets to be completely wrapped for improved load containment
